

FOR IMMEDIATE RELEASE

Stringjoy Introduces Mark Morton Signature String Set

Each string boasts optimal tension, clarity, and durability.

NASHVILLE, TN – February 29, 2024 – ([GUITARpr](#)) – Stringjoy has just announced the introduction of their **Mark Morton Signature String Set**. Designed in close collaboration with Lamb of God's iconic guitarist Mark Morton, these strings will deliver unparalleled performance and tone from the studio to the stage.

Engineered with precision and care, each string boasts optimal tension, clarity, and durability, ensuring your riffs cut through the mix precisely and powerfully. From blistering solos to bone-crushing rhythms, these strings excel in every musical scenario.

All Stringjoy strings are engineered to deliver:

- Maximum output
- Longer lifespan
- Smoother playability
- Better tuning stability

Crafted with the highest quality materials and expert craftsmanship, Stringjoy's Mark Morton Signature String Set is the ultimate choice for guitarists seeking uncompromising tone and reliability.

With this product, Mark explored several different combinations of string material and gauges before settling on this Nickel Wound 9.5-50 signature set, which proved to be the perfect combination of tonality and playability for Mark's style.

According to Stringjoy president, Scott Marquart, "We couldn't be more excited to work with Mark to launch our first artist signature guitar string set. I think players that give this set a try will immediately see what Mark loves so much about it—excellent playability on the top end, coupled with plenty of power on the bottom end, and a consistent balanced tone that's at home for blues solos as it is for metal riffs."
