

FOR IMMEDIATE RELEASE

## **Magnatone Builds Another Custom Backline for Billy F Gibbons**

*Six heads and six cabinets in amazing Silver Croc finish*

ST. LOUIS, MO – May 31, 2023 – ([GUITARpr](#)) – Magnatone has just announced the completion of another custom backline for Billy F Gibbons. This unique build consists of six custom Super Fifty-Nine M-80 45-watt tube heads and six 4x12 cabinets covered in Magnatone's amazing Silver Croc finish.

These amps were built especially for Billy's upcoming UK tour which runs from June 6th through July 16th across Europe. Once the tour is finished, the amps will be hand signed by Billy and shipped to Magnatone Dealers in Europe, who pre-ordered these exclusive amplifiers.

This also marks the first time Magnatone has built a 4x12 cabinet and their first collaboration with Celestion Speakers using their 65-watt Creambacks throughout.

According to Magnatone General Manager, Rod Washburn, "These amps are proudly made in the USA by our team of skilled builders and once again, Magnatone displays its talent and flexibility in creating these special custom products for the benefit of our artists, dealers and customers alike."

More information is available at <https://www.magnatoneusa.com>.

### **About Magnatone**

The Magnatone brand was first established in 1937 in Los Angeles, CA. The company is most famous for inventing and patenting the stereo pitch-shifting vibrato effect using a non-moving part. Legendary artists like Buddy Holly, Lonnie Mack and Robert Ward have all used Magnatone.

RELEASED THROUGH

**GUITAR***pr*

Today, Magnatone manufactures high-end, boutique tube guitar amplifiers that are *made in the USA* and played by such guitarists as Billy Gibbons, Jeff Beck, Neil Young and Jason Isbell. Many of the current Magnatone models still feature their famous pitch-shifting vibrato effect as well as tremolo and reverb.
