

FOR IMMEDIATE RELEASE

## **Magnatone Announces the New Super Fifty-Nine M80 2x12” Combo Amp**

***Combo version combines low to medium gain tones with an extra gain stage***

ST. LOUIS, MO – January 26, 2023 – ([GUITARpr](#)) – Magnatone has just recently announced the highly anticipated release of its new Super Fifty-Nine M80 Combo amp.

This much-requested 2x12" Combo version of the 45-watt, EL-34-driven model combines low to medium gain tones with an extra gain stage. Accessing it all is easy via the front switch or footswitch. This amp comes with a tube-buffered effects loop and a well-planned palette of tone controls.

A solid features list includes:

- Two EL34s, 45 watts Push-Pull, Class AB
- Footswitchable gain stages in a flexible package
- British voiced master volume design with treble, middle, bass, and presence
- Tube-buffered effects loop send and return
- 2 x 12" WGS-made ET90 speakers

The Combo also comes with a footswitch, Impedance Selector (4, 8, AND 16 Ohms Combo - 8 and 16 Ohms), and backlit logo.

Rod Washburn, Magnatone GM stated simply, "We just made a lot of people happy with this one, long overdue."

The Super Fifty-Nine M80 2x12” Combo will be available at Authorized Magnatone Dealers and is priced at \$3799.

## About Magnatone

The Magnatone brand was first established in 1937 in Los Angeles, CA. The company is most famous for inventing and patenting the stereo pitch-shifting vibrato effect using a non-moving part. Legendary artists like Buddy Holly, Lonnie Mack and Robert Ward have all used Magnatone.

Today, Magnatone manufactures high-end, boutique tube guitar amplifiers that are *made in the USA* and played by such guitarists as Billy Gibbons, Jeff Beck, Neil Young and Jason Isbell. Many of the current Magnatone models still feature their famous pitch-shifting vibrato effect as well as tremolo and reverb.
